

WASHINGTON ELEMENTARY SCHOOL

Kimberly Marano, School Counselor

Together we know, together we grow!

Thank You!!!

Over the course of the 2018-2019 school year, Washington Elementary School has participated in several "Service Learning Projects". Service Learning combines community service with structured opportunities for learning. Many students get caught up in their own lives, and their importance often revolves around friends, family, sports, and academics. Through Service Learning, students can see their part in the larger community and learn why it is important to help others. Service Learning Projects can be life changing for students. They learn empathy for others, and may even get to see that their lives are not as bad as they think. Listed below are the charities and/or service projects Washington School has contributed to this school year. Well done!

*Heart of Gold Campaign

*Pennies for Patients

* Letters to the Veterans

*Bubbles for Autism

*Thanksgiving Food Drive

* Wall Quotes & Affirmations

* Scholastic PJ & Book Drive

*Heavenly Hats Parade

* Holiday Express

*Relay for Life

* Santa in Blue

Thank you for taking this first step in helping your child be a part of the service community.

Sincerely,

Kim Marano

School Counselor
